

Update on Progress for the Frost Point Hygrometer GRUAN Data Product (Action B7)

Dale Hurst, Ruud Dirksen, Takuji Sugidachi

- To date there has been no progress on the development of this GDP
- Excuses include:
 - Lack of time: - RD: LC's primary focus has been on RS41 GDP
 - DH: Focus on SPARC Water Vapor Report
 - TS: "Guilty only by association with RD & DH, your honor"
- "New" FPs may require adjustments to a GDP developed for CFH/FPH
- COVID-19 – has forced everyone into "overtime insanity" working mode
- Ideas to promote action on this task:
 - Hold regularly scheduled virtual meeting to discuss approaches (difficult due to the unfortunately-spaced time zones)
 - One person take the lead and prompt others with ideas/documents
