

## Bringing frostpoint soundings online as GRUAN data products

### Holger Vömel

German Weather Service  
& GRUAN Lead Center  
Lindenberg, Germany

### Dale Hurst

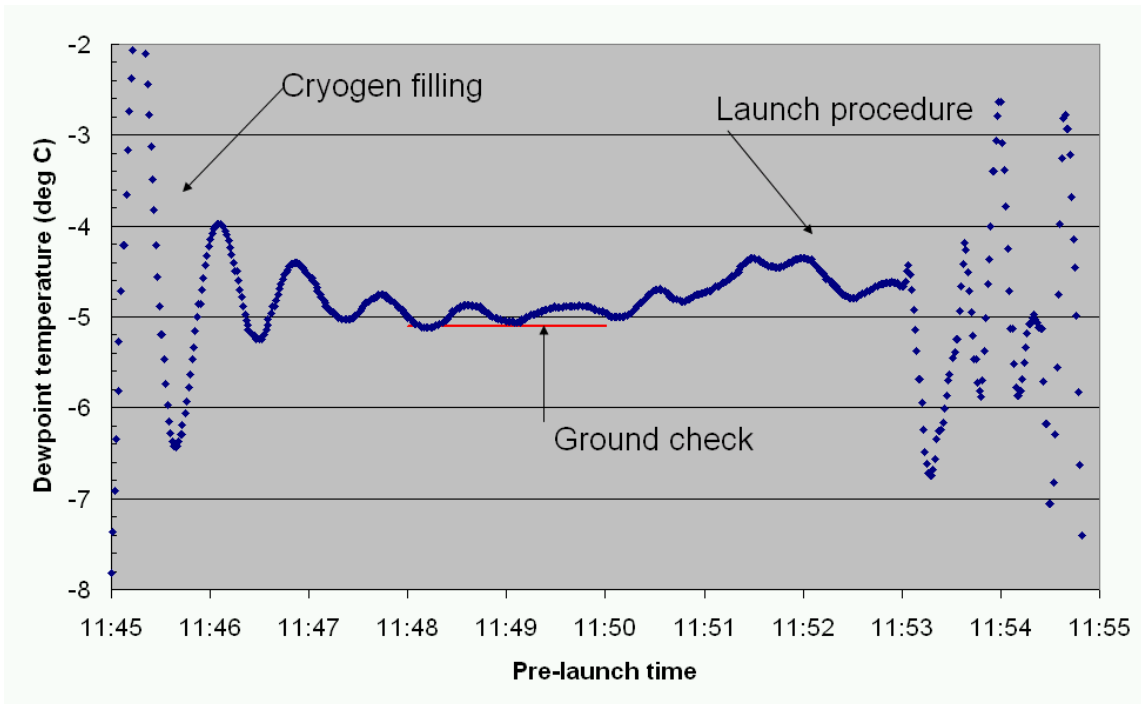

NOAA ESRL Global Monitoring Division  
& CIRES, University of Colorado  
Boulder, CO USA

Requirements to bring in frostpoint observations:

- ✓ Is traceable to an SI unit or an accepted standard
- ✓ Is documented in accessible literature
- ✓ Includes complete meta data description
- Is validated (e.g. by intercomparison or redundant observations)
- Provides a comprehensive uncertainty analysis

## Need for independent ground check:

Open actions:

- Establish comprehensive uncertainty analysis
- Validation under all conditions including lab
- Document uncertainty analysis
- Establish feasible ground check

This will be an iterative process

First working product to completed within 6 months
