

# GATNDOR co-location topic

Next steps:

1. Publish the paper already drafted
2. Apply to other data (ARM, Sodankyla) to cross-check the reliability of the approach
3. Toolkit for GRUAN
4. How to serve GRUAN for its purpose? Site certification?

# GATNDOR redundancy topic

Next steps:

- Apply over more data (Lindenberg, Sodankyla, Payerne)
- Paper draft available hopefully by next May-June.
- How to server GRUAN? Instrument selection?

# GATNDOR Workplan 2013-14

## New Members

- Dr. Kerstin Ebell  
Institute for Geophysics and Meteorology  
University of Cologne  
Redundancy+SASBE
- Dr. Hannes Vogelmann  
Karlsruhe Institute of Technology (KIT) Institute for Meteorology and Climate Research (IMK-IFU)  
Co-location (Garmisch data)

## New Topics

- PhD position (funds?): **"Improving satellite validation through an assessment of best vertical resolution and of the value of uncertainty covariance matrix of atmospheric variables to use in Radiative Transfer modeling"**.

## Chairman change

- As soon as new people will be involved
