

Cabauw Experimental Site for Atmospheric Research

## Cabauw Site Status

Arnoud Apituley  
KNMI, De Bilt, NL

ICM-6  
10 March 2014

- KNMI budget cuts were announced that require
  - Contribution from non-KNMI partners for site operations
  - Removal of remote sensing measurements from base funding
- Time is needed for implementation to prevent irreversible action
- KNMI and partners are planning a bridging period
- Instruments and data streams will remain intact (as much as possible) during this period
